

InnoSME

www.innosme.eu

InnoSME is your gateway to participate in RTD European projects

Challenge

To identify potentially innovative SMEs dealing with ICTechnologies, located in the New Member States of the EU, assess their capabilities, and enable them to become effective and competitive partners in RTD projects of the EU 7th Framework Programme (FP7).

Objectives

- Establish regional networks of organisations involved with SMEs.
- Create a database of SMEs dealing with ICT in the new member States and identify potential candidates to participate in RTD programmes.

Target

Innovative SMEs of the ICT sector that will be the end-users and beneficiaries of the project activities.

Methodology

To create a database of SMEs dealing with ICT, in order to facilitate the best practice exchange and identify candidates to participate in EU RTD programmes.

To disseminate information and advice to SMEs through workshops in their own countries, and through web - based tools, in order to enable SMEs to participate effectively in EU RTD programmes such as FP7 or CIP.

GET IN TOUCH

With your local stakeholder at aruszanov@mgyosz.be

Please visit our website: www.innosme.eu

The InnoSME project is supported by

a programme from the European Commission

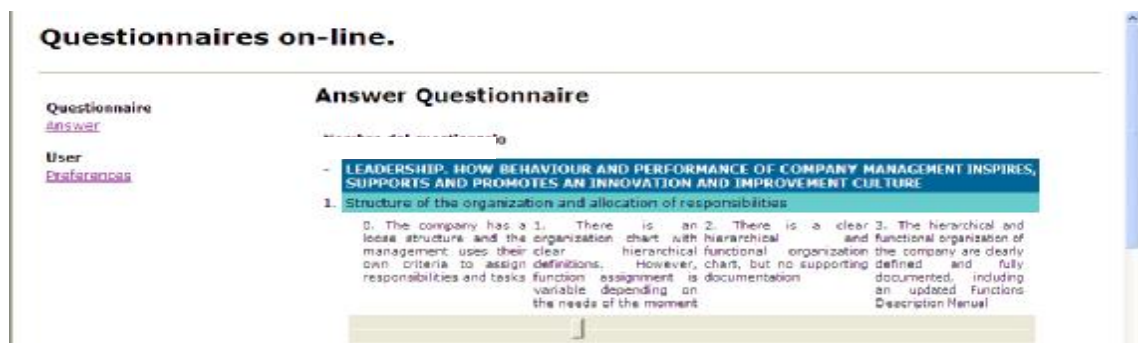

Work process

The work process with SMEs will be as follow:

1. SME access the InnoSME Web and fill-in a registration form in the sme section, obtaining their username and password

2. SME can access the sme section of the innosme website and use the self-diagnosis tool to know their innovation capabilities and potential

3. SME receives a personalised and confidential advice about their position and can start an adapted training itinerary using the training modules.

InnoSME: an added value for SMEs:

- à To know their innovation positioning and capabilities (self assessment tool - self diagnosis)
- à To improve their innovation skills (personalized assessment and training)
- à To benchmark results, share best practices and experiences
- à To participate in FP7 & CIP of the European Commission (advice & match making)
